First name: Patricia

Last name: Vineski

Organization:

Title:

Comments: Why was there no collaboration with YVFC, especially given that collaboration is a key requirement under the Healthy Forest Restoration Act? We requested this collaboration back in July, when we began noticing trees being painted, often in mature and old-growth forests.

The proposed units are primarily located adjacent to private property, yet landowners have not been contacted to discuss how shared management goals, under the "Good Neighbor Authority," could be integrated.
