Comments: I oppose the proposed and misnames Canyon Forest Restoration project. This logging operation is not a forest restoration but a commercial logging project being proposed without proper environmental review under NEPA. Logging of this fire regenerated stand goes against requirements to maintain forest diversity and viable wildlife populations with acknowledged likely adverse impacts on Northern Spotted Owl, Marbled Murrelet, and Bull Trout critical habitat. This project would degrade almost 2000 acres of habitat and would cause irrevocable harm to this environment. This project should not go forward.
