Comments: To whom it may concern,

I voice support for this project, however I am concerned it may not go far enough to support local economies, or to mitigate wildfires. Also, I have seen these projects not be successful in the rehabilitation of the infrastructure being used. Please consider going above and beyond in all of these areas to help with all of those concerns while protecting the contract area. As you well know, if we don't mitigate the wildfire risk, there will be little environmental benefit to the project.

Thank you for your time,

Ryan Stucker
