First name: Jim

Last name: Johnson

Organization: Elk Glade Outfitters and Friends of Old Stage and Gold Camp Roads

Title:

Comments: We are thrilled about the mitigation efforts that impact us directly on Old Stage Road which have been swiftly and expertly done and look forward to efforts around Penrose/Rosemont Reservoir.

We also strongly encourage the building of a formal gun range on Gold Camp Road as, from personal experience, the four fires I've known of personally on Gold Camp and Old Stage Roads were caused by gun fire. One was within a half mile of our gate on FSR 372 that Carl Bauer and Earl Huey confirmed was shooting related. It was not even terribly dry, but the shooter was using a piece of hard metal as a target and it sparked.

The fire consumed about two acres around three beaver ponds and I conjecture, as it went out without outside intervention, that the beaver helped by using their tails!
