Title:

Comments: These clear cut logging projects under the guise of wildfire prevention are a disgusting lie, designed to line the pockets of a few rich people at the expense of the general public! Reinststate the roadless rule, and keep the logging off of our protected public lands. This is corruption and must be stopped! Science doesn't support the clear-cut to prevent wildfires! Removing the forests will cause irreparable damage to endangered species, erosion damage, contribute to global warming and air pollution.
