Comments: I disagree with this project. I vehemently disagree with building more roads in currently roadless areas!! I vehemently disagree with logging old growth forests. They are not replaceable!!

I also disagree with the Emergency Action Determination. Why is it suddenly an emergency? Using the Emergency Action Determination to get around oversight is WRONG!! If this project doesn't get support on its merits, then it likely is NOT an emergency. The current trend in our country to use bogus Emergencies to justify otherwise unwarranted actions is WRONG. A true emergency situation would have complete public support. I have not heard that the Roadless Rules have been officially stopped yet. How is this even possible?
