Comments: Hello,

I am glad you are addressing the risk of fire near the Middle Fork of the Flathead River and implementing fire reduction strategies. But I do hope that none of the proposed activities will negatively impact the wildlife, water quality and scenery in the area. I strongly oppose new road construction, but if absolutely necessary, propose that these roads should be obliterated afterward. I would also request that potential impact on wildlife connectivity along Highway 2 be considered.

Thank you very much,

Connie Hoskins
