First name: Daniel

Last name: Eakin

Organization:

Title:

Comments: I strongly disagree with this proposed project. It is unnecessary, likely illegal, and will degrade and put at risk pristine wilderness area and wildlife habitat. This proposal won't help the health of the forest area, but do the opposite all in the name of monetary profits.

The Blackfeet Nation must be allowed the opportunity to be involved and have actual say in the decision. This proposal does not include that.

Because President Trump is clearly not following the Constitution or federal statutes, his executive order is suspect on its face. The proposed project area will be forever altered and damaged if this project is allowed to go forward, and it will be a permanent stain on the US Forest Service.

This proposal does not follow the intent and spirit of the US Forest Service, and I respectfully urge you to not do it. Particularly if you want to avoid long, drawn out litigation.

Please do what is right and do not approve this proposed project. Thank you.
