Comments: Thank you District Ranger Rob Davies for requesting public input on the project, even though it is no longer required by law.

I ask that the EA provide justification for the commercial treatments proposed in inventoried roadless areas (IRAs).

I passionately oppose new road construction. Even roads made "inaccessible" still cause long-term sedimentation and aquatic habitat degradation and facilitate legal and illegal access that degrades secure wildlife habitat. Any roads that must be built should be "obliterated" afterward.
