Title:

Comments: Hi Suzanne,

Isabelle & I live at 8 Forest Ridge Drive and are abutting landowners to the National Forest to our east. I looked at the location shown on your website (project #67318) and it only shows the area on the Upper Plains Rd. but I was told it also involved work in East Middlebury north of the North Branch Rd which would be adjacent to our property. If that is the case, we should have been notified about the work as abutting landowners. We have serious concerns about burning in this area. My wife has asthma and our neighbor kids also have asthma and smoke significantly affects them. We also were not informed about the public meeting held in Brandon in January.

I have tried to find out any information on the project with limited success.

Please reach out to us via email or by calling me directly to discuss this issue. You have my contact information above.

Thank you

Richard & Isabelle Terk
