Title:

Comments: no logging.no hunting or trapping, no chemical sprays. no letting local economy destroy this land that is national land, not local land.let private local land be used for their enrichment. not national land.do not ever trust USDA to be good stewards of land. usda grasping anti enviro agency.

usda is farm agency and should not be in charge of open space at any time.do not like trumps destructiveness toward national land that belongs to the nation. protect and preserve every acre of this forest.national forests should never be destroyed for local economies. the local economy has a duty and obligation to buy private land to enrich themselves. the nation does not owe destruction here to Alaska citizens. stop usda current plan. use what we had in previous years to stop continued destruction of this forest.
