Comments: I wish to express my objection to the extensive acreage proposed for logging. To include the number of clear cuts being allowed in this management plan. As a Kentuckian I have witness the extractive industries take unduly from my native woodlands and our public lands. In recent years with the popularity of bourbon on the rise, the sheer volume of white oak alone which I see removed from our forests is nearly appalling.

I feel our public lands are the last vestiges where any semblance of the Kentucky of old is still preserved. We should leave it as such given how much our state has been abused and under siege by extraction.
