Comments: I am against this the Jinx project # 67625 because it seeks to further dispossess the indigenous peoples of these lands of sacred sites. It is a disgrace that our governments would continue to abuse people so. I am further against it because mining and particularly the extraction of uranium destroy and disrupt ecosystems, producing carcinogenic and toxic substances that leach into the systems that feed the people South Dakota. Water is already scarce and more mining only aggravates that for the masses. Our governments are supposed to look out for the interests of the masses, not corporations and capitalists. As a tax-paying citizen of these United States, I object to this project and wish for the sacred sites of the indigenous peoples of this land to be honored and preserved as they see fit. Industry has done enough damage to humanity, it is time our governments to take a stand and check industry and vote instead with the people: REJECT PROJECT # 67625!
