Title:

Comments: I am a resident of Fall River County, a concerned mother, and someone who has spent a lot of time connecting with nature in deep ways, in places like Craven Canyon. I oppose uranium exploration or drilling of any kind on these sacred grounds. The impact it would have on the environment and wildlife, watersheds, and people of this area is not worth the risk.

At the bare minimum, I want to ask the forest service to to a full Environmental Impact Statement for the October Jinx Project.
