First name: Randy

Last name: Sholl

Organization:

Title:

Comments: NO, I am not for this project! The Forest service is always restricting road access for outdoor enthusiasts and here you want to let a for profit organization build more roads on our forest. NO. They can find some private property to do their road building pond making and what ever they want.

Get rid of that goofy travel plan and open or leave open roads that can be enjoyed by the general public and then we may consider pandering to the for profit organisations.
