Comments: Hi there, I am a young person who cherishes our forests.

I'm voicing respectful opposition to this timber sale. I'm concerned that the Forest Service is proposing over 35,000 acres of commercial logging as part of the Austin timber sale in the Malheur National Forest. The Austin sale includes logging of large trees, logging in mature and old forests, logging in streamside riparian forests, and reducing wildlife habitat and connectivity.

Please cancel this sale. Thanks
