Comments: I support the project to link Snow Summit to Bear Mountain as long it doesn't prohibit public access to the eastern end of Skyline Road (2N10) or the forest and the trails in the immediate area. Trails include Bristlecone, Fern, Fall Line, Pirates, Plumbers, and Skyline. I want to be able to enjoy unfettered recreation opportunities in the forest between the two resorts during and after the project is completed. I can allow short term, temporary closure of specific areas for safety during construction on weekdays. I want the area open on the weekends and fully restored, open and free to the public as soon as feasible.

Thank you.
