Comments: Dear Representative,

The Eagle Creek Project EA was developed to consider only a proposed action and no action alternatives in detail. Detailed action should be provided and the EA should always be subjected to pre-decisional administrative review (Consolidated Appropriations Act of 2012 (Pub. L. 112-74) as implemented by Subparts A and B of 36 CFR part 218).

The proposed project unchecked opens the door to abuses and diverted goals. We must prevent further depletion of our environment that can only lead to further disasters.

Please act responsibly and ensure checkpoints are enforced at every new step.

Thank you.

Best regards.

Guillemette Epailly
