Comments: I think all of the upgrades proposed to the ski resort will be excellent. I have 1 comment regarding 1 of the 2 lift upgrades. My concern is if Lift 7 is replaced with a fixed grip lift it will be immediately outdated based on the length of the lift. I do not believe there has been a lift replacement the length of Lift 7 at a major ski resort in the past decade that has not been replaced with a detachable high speed quad. By replacing the lift with another fixed grip lift now, my thoughts is Lift 7 will need another replacement in the near future, causing additional down time, tree removal, land disruption etc. I think it would be best to do it right the first time or wait until a time Telski has the funds to replace it with a high speed detachable quad. Lift 8 length is not as long so it is not as concerning.
