Comments: Hello I wanna start in by saying I approve this idea of getting logging and cleaning up around Jardine been needed to be done for awhile, im not saying cut it all out but the few times enjoying the forest service around that area it's needs cleaned. I'm excited to see more jobs come back with this proposal I've bounced in an out of logging an can say I love seeing timber actually being used in a needed economy an not being burned up an seeing the wildlife that I've seen use log landings as new bedding areas alot. So I'm very interested in seeing this get approval, Thank you for your time.
