Comments: As the principal of Raft River High School, located in Malta, Idaho we are excited about the re-opening of the Liberty Gold Mine on Black Pine mountain. Local residents are excited about the possibility of job opportunities for themselves and for their sons and daughters. I have had neighbors inquire about jobs and I have them speak with Beth Campbell. There seems to be some excitement about the work that will be made available to our local residents.

As a school we are hoping that we might get some new students who arrive with the workforce. We are proud of our school and our instructors here and know that we can offer a solid core education foundation for new students.

We have appreciated the outreach by Beth and Pete with regard to allowing our STEM students to tour the mine. We also appreciate the lessons and labs that have been presented to our students by the geologists and employees of Liberty Gold.

Raft River High looks forward to working in the future with Liberty Gold.
