First name: Wood

Last name: Stove

Organization:

Title:

Comments: Pinecrest is home to many old growth conifers, bald eagles and biodiverse plant species. For years it has been enjoyed by millions across the world. Let's keep the tradition alive, without spreading the ugly footprint of utilities, underground excavation, parking lots, sewer and water infrastructure just to name a few.

This area already has superior management in shape of store, restaurant and resort for decades.

Please stop developing on what's left of remaining archaeological indigenous sites.

Quality over quantity.

I object the new proposal.
