Comments: As a tax paying Tuolumne county citizen I strongly to any further commercial development at Pinecrest Lake. Further, it is beyond disappointing that I even need to write this. Pinecrest is already overcrowded and often unavailable to residents of the county due to over crowding noise and pollution. Ask yourself who will benefit from further development? Absolutely not the residents. We are watching closely who will support this insane money grab and we will fight and discredit anyone who support this stupid idea. You will not pave paradise and put up another parking lot.
