Title:
Comments: California native, my family has been coming to Pinterest since the 1950s. We've been able to ensure each generation could have the same quiet and safe experience because it stayed small, local, clean, and open. Opening Pinecrest up in this way will forever change the beauty and magic that this place holds in the Sierra. We have never been drawn to Donner or Tahoe because they don't feel like nature and home. Please don't change Pinecrest!
