First name: Carin

Last name: Hermann

Organization:

Title:

Comments: Having been born and raised in Pinecrest, I find any attempt at further commercialization to be putting a cart ahead of the horse. The area is already in great need of infrastructure for its existing (plentiful) services. What is needed is expanded parking facilities and/or public transport from the valley and Bay Area, funding for locals to ensure access to mail services, internet, snow removal, and schools!

This area is revered for its natural beauty, undeveloped land, and outdoor recreation. Let's not irreversibly destroy that. Please get the area properly prepared for its current overwhelming visitor load and support the local residents.

Thank you.
