Comments: I have lived in Tuolumne county for 45 years, three of those in Cold Springs, currently in Sonora. I use the Pinecrest Basin area year round. I hike, camp and ski at Dodge Ridge. I would hate to see expanded commercial building. This is such a unique and wonderful area. I have of course seen the increased use of this area over the years.

It seems the argument for expansion is for the convenience of the visitors. Our main concern should be preservation of the nature of the area, the lake and forests, not how to make visitor experience more convenient. I love this area and would hate to see commercial expansion.
