First name: Branden

Last name: Severe

Organization:

Title:

Comments: In my interactions with those representing Liberty Gold, there have been no negative items that have triggered my opposition. I am excited for the opportunity that the mine is going to provide for the area. I have also had the opportunity to tour the area, and feel that those who are making decisions for this project are making sound choices. This project will be a great benefit for all involved. Thank you for working to bring this project to us.
