Dear District Ranger Welker,

As a registered Republican, I am writing to tell you I am not in favor of ANY Data centers in Arkansas and most especially not by our beautiful Arkansas River.

Data centers cause disastrous consequences to our environment and to the residents of our state.

They do NOT provide jobs as they can be ran with very few employees. I also find it difficult to trust that our state would ever see a penny of the revenue generated. All we would gain is irrevocable harm to our stunning landscape and our plentiful water sources, let alone our household energy costs.

Please say NO to data centers in Arkansas.

Sincerely,

Paula Abney.

Paula
