Comments:

I am writing to express my deep concern regarding Berkeley University's proposal to change the Community Lodge into a commercial enterprise. It is important to note that they previously owned Pinecrest Chalet and sold that property for a profit.

Additionally, I would like to highlight that most businesses in the area are highly seasonal, which could impact the viability of another commercial facility in Pinecrest Lake. Furthermore, the existing parking situation in Pinecrest is already a challenge, and adding more commercial operations could exacerbate this issue.

We strongly advocate for maintaining the Community Lodge as a community-focused space rather than transitioning it into another commercial establishment.

Thank you for considering our concerns.
