Comments: I would like to know why I as a property owner adjoining the Morrison hammock swamp was not notified of the forest plans to change The swamp?

I understand it was advertised in the newspapers somewhere; however; not everyone gets a newspaper. The tax appraisers office would have been a much better place to go to look for the people that own property adjoining, the national forest and the subject area.

I wish to be kept abreast of what is coming to pass, primarily because I would prefer to see Morrison hammock swamp left the way God made it and not the way man wants it to be.

I have my own ideas and don't have enough time or space here to expound upon my ideas. Therefore; keep me in the loop please.
