First name: Darci

Last name: Colbrese

Organization:

Title:

Comments: Absolutely no commercial logging in the chalk buttes. Continue to protect our sacred land, forests and native species of plants. Montana is known for our big sky and beautiful spaces. Submitting to billionaires who want to take that away from us not only takes the beauty we have protected but it cuts down our way of life and reasons people come to the big sky to vacation. Montanans better take a stand when it comes to our state and her beauty, sell it off for logs will cheapen our state and for what? A quick buck? Nope! We refuse to bend the knee to the rich people who want to make more profit off the back of our people and our state.
