Comments: To whom it may concern

I believe that the new owners of this property have done everything to make it a beautiful welcoming space for all. They fixed everything they updated everything and even added a wonderful coffee shop for all who come.

All of this is to bring community together and have a safe space for them to do so. All of this can only be good for the community surrounding this beautiful space.

There are no negative impacts for the environment or the community. Please allow people that live and love this community to better it.
