Title:

Comments: Thank you for the opportunity to comment on this project. I would like to respectfully advocate for the following trail-use designations in the Aspen Alley area:

Current Aspen Alley Trail designated as bike-only, with a downhill-recommended directional preference (similar to the Slalom trail designation posted by the Town of Breckenridge last year)

New Flow Trail designated as hike-only - Bidirectional.

These designations would effectively address the majority of user-conflict concerns in this region. Hikers would be able to enjoy the trail without the risk of unexpected encounters with mountain bikers, and bikers would have peace of mind knowing they can ride a purpose-built flow trail without frequent stops to yield to foot traffic.

While a downhill-recommended designation is preferred for the bike trail, allowing uphill travel would preserve connectivity for riders wishing to climb Aspen Alley as a link to other routes.

I believe this distinction between user groups is imperative to the long-term success of this project and will greatly enhance the trail experience for all users.

Thank you for your consideration.
