Title:

Comments: Please consider the existing Aspen Alley trail to be the climb (uphill bike) / hike trail. This trail currently is currently at a gentle enough grade to peddle.

Build the new Aspen Alley trail steeper fall line (shorter milage) leave more natural features (rocks / slabs / roots), deeper berms, side hits/ naurtal smedium jumps/drops for DH only MTB decent trail.

Thanks for all the support, resources, planning and attending to safety with multiple trail user groups.
