Comments: Dear Forest Service,

I am glad to see this project being considered on your lands. This project brings back one of the forest service primary Tennent's, Multiple use.

The only fear I have for this project is the FS being too conservative because of all the scare tactics and anti-multiple land use rhetoric of the radical environmental movement, and the preferential treatment they receive in matters that effect the whole public not just their special interest membership.

Good luck with this project, you have my full support.
