Comments: I have serious concerns about this proposal. Turning the community center into a commercial venue will cause a multitude of issues including waste water management, insufficient evacuation plans in the case of a fire, and and overflow parking. It also sets a bad precedent that people can chance there permits by saying " well, we are already breaking our agreement so might as well make it legitimate instead of suffering consequences". Most of all though, I think this will negatively impact the local community as it is one of the few community centers still open. The negative impact on the school will also be felt throughout the community.
