Title:

Comments: I am a California native, my family has been visiting Pinecrest all my life. We have been enjoying the welcoming atmosphere of Pinecrest because has remained small, community-oriented, clean, and accessible. Expanding Pinecrest in this way would permanently alter the character, beauty, and special feeling that make this place so unique in the Sierra. Pinecrest still feels like home and a true escape into nature. Please preserve what makes Pinecrest special and avoid changes that would take that away. I oppose the proposal.
