Comments: I understand Pinecrest to be heavily populated to a fault during the summer. I also believe this project should be allowed to move forward as it's in a space already set up for commercial use. They support tourism and have the parking and infrastructure to support their business year round. They are creating opportunities for others to utilize the space and want to be a part of the local community. I don't see how this will negatively impact the area, only contribute year round opportunities to locals and visitors. With the amount of people who visit on a daily basis throughout peak seasons, this wouldn't have a negative impact on other local businesses in the area. While I love to support the current local businesses, I know I would appreciate having another option when areas close to the lake are overwhelmed. This location is based away from the main storefront areas offering those who choose to visit a quiet charming location away from the lake.
