First name: Jennifer

Last name: Bopp

Organization:

Title:

Comments: I am a resident of Glenwood and have a business in Mt Ida.

I am urging you to not allow this mining expansion in any way.

We are all being given very important choices to make now.

For an instant, immediate gratification of greed or do we consider the future and the consequences.

These trees. This water. The land. The animals. The people. All of this will be negatively impacted by this expansion, and for what?

Some money.

For what?

To help the technology industry and AI fake world.

That world is not real.

What is real are these trees, animals, water, the land. People.

Nature.

Please.

I urge you to use your power in a way that protects, for the future generations, we must think about the future generations. We are the Natural State. Not the mining state.

We have enough of that already.

I oppose this nomination and I trust that you will listen to the peoples voices and oppose it as well.
