Comments: Dear Kristen Lark,

I am writing to let you know that I object to the South Fork Mountain Vegetation Management Plan. This plan would log much of South Fork Mountain. This is a wilderness area with steep slopes, and the proposal would remove forest canopy and habitat for wildlife. I also object to the extremely short timeline for the public to respond to such a plan. This plan will destroy a beautiful wild area of our forests. Please destroy this plan instead.

Thank you.

Byrd A. Lochtie
