Title:

Comments: I fully support this development. Waterville Valley has the potential to provide an experience unique to New England skiers and riders by creating a direct contact from the village to the ski area. Moreover, this project will encourage summer use on the mountain, including events, wedding, and other tourism-related draws (scenic chair rides, etc.). Ultimately, the project will drive business in the downtown zone, reduce the impacts of automobiles on the access road and the parking areas at the mountain, and provide a seamless user experience. This is a well-designed, thorough proposal that deserves to come to fruition.
