Comments: Dear WMNF Supervisor Derek Ibarguen,

Thanks for the opportunity to comment to the Draft EIS for the Waterville Valley Resort expansion plan.

I'm mostly a cross country skier so don't use the Alpine Resort much. But I'm fully supportive of this expansion project. Construction of a lift from Town Square to Green Peak will have impacts, but it will have significant benefits. Now alpine skiers will be able to go to and from Town Square lodging, restaurants, etc to the Alpine Resort and back without needing to use their car, or even the resort shuttle. This will reduce traffic impacts and make the resort a true walk-able "European Village Concept" for a more sustainable future.

Thanks very much for your consideration,

Michael Barry
