First name: Tyler

Last name: Brothers

Organization:

Title:

Comments: Please go to a permit system on all forks of flathead. The outfitters have way to many boats and impact on the rivers. The south fork is now the go to float with outfitters having unlimited pack trips into river without any coordinations and floaters camping in non designated areas causing damage to river banks. With all the small boats the use has increased ten times. Please restrict numbers by public and outfitters to keep the area wild.
