Title:

Comments: I oppose the Bear Palmer logging project surrounding Jardine, on the northern edge of Yellowstone. I am against the plan to mismanage 4,401 acres, 824 of them clearcut, with nearly 8 miles of new road cut into the Eagle, Bear, Palmer, and Crevice Creek drainages. The fast-tracked process, under a federal "emergency" authority, strips away the normal review - and leaves no chance to appeal the decision afterward. I stand with the people who live, work, and depend on this forest for their livelihood, their health, and their survival.
