Title:

Comments: I am submitting comments in opposition to the North Trinity County Community Risk Reduction Project. This project proposes commercial logging across thousands of acres of Northern Spotted Owl Critical Habitat, Late Successional Reserves, and includes more than 2,000 acres of logging in Riparian Reserves, in one of the most ecologically significant landscapes in the National Forest System.

As a Christian pastor, as a Californian, and as a US citizen, I appreciate the Forest Service mission, and the need to balance a variety of interests. This proposed project is totally unacceptable and destructive in many levels. I view it as an attack on God's creation. I strongly oppose this proposed project .
