Comments: This plan is a disgrace. Many animal and bird deaths will result. I do not think it should be necessary to cite exact negative effects since that should be clear to any reader of the plan. I will simply state that this plan MUST go back to the drawing board. We are living in a world where any negative environmental plan must be stopped from happening, We are facing a future of environmental collapse and there is no acceptable option to do anything but tread VERY lightly on the earth and it's inhabitants.
