Title:

Comments: I object to this project. POW and particularly the Staney Creek basin has suffered more than enough damage due to past reckless greedy logging of old growth forest. Any further damage and loss of habitat will be the final blow to already much diminished salmon populations. There are plenty of trees in much less sensitive areas to harvest. It is unethical to permanently push these once abundant fish population into extinction for a handful of very temporary jobs.

Do the right thing and reject this proposal.
