Comments: Hello, as a SLC resident as well as a user of the Cottonwoods. I welcome the Watershed Restoration. Due to population growth, use, and overgrowth we are due for a big fire. Thanks for mitigating it.

I ALSO oppose any increase in roads in the Canyon. I remember a story from Italy. I was on a trip to Sicily, a mountainous, dry place. A HUGE fire started along the roadside and spread quickly from a cigarette thrown from a car. It was a bigger impact to the area than eruptions of Mt. Etna.

Roads bring accidents and fire is a risk.

Please do not expand roads.

Bring beaver!

Thank you
