Comments: I'm sending this email to voice my opinion about the Quartz mining in saline county. I strongly oppose turning our public lands into commercial mines. I think our public lands should be kept pristine. There are many concerns about this proposal. I think it would negatively impact our watersheds, wildlife, and scenic beauty. I've been a resident of paron for 3 years now. My family has been here for 50 years. While the demand is high we have to consider what is sacrificed. When we begin to allow projects like this, we start heading in a direction we do not want to go with our public lands. We have to make sure this isn't allowed.
