Comments: These lands are precious to us who live here. We use them for everything and to have access to these lands free from drilling or other corporate interests is essential. Our town has already grown to the point where human/wildlife interactions are a daily occurrence and if we start pushing more animals into town because of commercial interests, the results will be catastrophic. Please, enough with the public sales of land, of destroying what little we have left of pure nature. Please don't allow this to happen.
